## FROM ANTHEM TO CELEBRATION: A DAY OF CEREMONY, DEBATE, AND UNITY

BY ANJA BARTHELMY / OFFICIAL MEP PRESS TEAM

With the powerful sounds of the European anthem filling the LAML amphitheatre, the National MEP Luxembourg 2025 officially began. Speeches by Ms Chaine and Ms Calteux highlighted European unity and the importance of being proud EU citizens. The four heads of delegations gave voice to the event's international spirit. Finally, the MEP presidency called on everyone to 'let your voice be heard' before the traditional shoe-tapping gesture opened the session.

Throughout the day, the real work began as all committees delved into their respective issues. While some progressed more smoothly than others, every group showed great dedication. A few delegates even took work home to ensure everything remained on schedule for the following day. Some spoke more, others listened carefully – but every voice mattered, as the teams worked together towards strong, well-crafted resolutions.

The evening then brought all delegates together for a fun social gathering. A spin-the-wheel challenge prompted four countries to showcase their best dance moves, followed by a lively round of 'This or That', with some unexpected laughs. Over a warm meal of chilli con and sin carne, conversations flowed – and eventually, the long-awaited *Kahoot* made its grand appearance – well worth the wait. With cake to end the evening, the day closed on a sweet note.
